

The College of William & Mary
Curriculum Vita
Donna Marie Bilkovic (Stewart)

PERSONAL INFORMATION

Name: **Donna Marie Bilkovic**

Date: 26 August 2021

Office Address: Virginia Institute of Marine Science, Gloucester Point, VA 23062

Phone: 804-684-7331

Home Address: 5301 Merganser Cir, Gloucester, Virginia 23061

Mobile Phone: 757-506-1062

Email: donnab@vims.edu

Position: Research Professor, Assistant Director, Center for Coastal Resources Management, Virginia Institute of Marine Science, William & Mary

EDUCATION

Ph.D., Marine Science, William & Mary, 2000

M.S., Biology, University of Michigan, 1995

B.S., Biology, University of Michigan, 1993

ACADEMIC POSITIONS

2020–	Research Professor, VIMS, William & Mary
2020–	Assistant Director, Center for Coastal Resources Management, VIMS, W&M
2014–2020	Research Associate Professor, VIMS, William & Mary
2008–2014	Research Assistant Professor, VIMS, William & Mary
2001–2007	Postdoctoral Research Associate, VIMS, William & Mary
1997	Adjunct Professor, Rappahannock Community College

HONORS AND AWARDS

2019–	W. Taylor Reveley, III Interdisciplinary Faculty Fellow (3 year appointment)
2016	Vice Provost Innovation Challenge Award, 2016 (with K. Havens, D. Stanhope, K. Angstadt)
2015–2017	Appointed to serve on the Executive Board of the Chesapeake Bay Program’s Scientific and Technical Advisory Committee (STAC)
2008–2018	Appointed to serve on Chesapeake Bay Program’s Scientific and Technical Advisory Committee (STAC) – Alternate (2008–2009), Member (2010–2018)
2001	Invited participant, ASLO-DIALOG IV symposium
1999	First Place Student Presentation, American Fisheries Society, Tidewater Chapter Meeting

CONTRIBUTIONS TO THE EDUCATIONAL PROGRAM

Courses taught (Undergraduate and Graduate)

- Fall 2020 Contributing lecturer. Guest lecture on living shorelines to William & Mary undergraduate students in the course *Wetlands Ecology*, instructor Dr Randy Chambers
- Fall 2018 Contributing lecturer. Guest lecture on living shorelines to William & Mary undergraduate students in the course *Sustainability and the Chesapeake Bay* (BUAD492, PUBP491, or MSCI398, instructors Drs. Andrew Scheld and Tonya Boone)
- Fall 2017 Contributing lecturer. Guest lecture on living shorelines to William & Mary undergraduate students in the course *Sustainability and the Chesapeake Bay* (BUAD492, PUBP491, or MSCI398, instructors Drs. Andrew Scheld and Tonya Boone)
- Spring 2015 MSCI 698 – Headwater wetlands ecology; co-instructor with Carl Hershner and Kirk Havens (2 credits)
- Spring 2013 Contributing lecturer. Taught a one day field lab on shoreline conservation and management to William & Mary undergraduate students in the Conservation Biology course (BIO 318, instructor Dr. Matthias Leu)

Students Mentored

Graduate Student Mentor

- Ph.D. Amanda Guthrie – VIMS, entered 2017
- M.S. James DelBene – VIMS, (co-mentor with A. Scheld), 2016– (Jan) 2020, *Investigating economic costs of derelict blue crab (*Callinectes sapidus*) traps and preferred mitigation solutions in the Chesapeake Bay*
- Ph.D. Molly Mitchell – VIMS, (co-mentor with C. Hershner), 2015–2018, *Impacts of sea level rise on tidal wetland extent and distribution*
- Ph.D. Robert Isdell – VIMS, (co-mentor with C. Hershner), 2014–2018, *Shifting patterns of ribbed mussel distribution and ecosystem services in response to sea level rise*

Graduate Student Committee Service

- Ph.D. Rachel Dixon – VIMS, entered 2019
- Ph.D. Sean Kinard – VIMS, entered 2019
- M.S. Emily Goetz – VIMS, entered 2019
- M.S. Taylor Walker – VIMS, entered 2019
- M.S. Kayla Martinez-Soto – VIMS, entered 2018
- Ph.D. Maura Boswell – Old Dominion University, entered 2016
- Ph.D. Xin Yu – VIMS, entered 2017
- M.S. Sam Mason – William & Mary, entered 2017–2019, *Investigating Within-Season Population Dynamics of a Specialist Butterfly, *Panoquina panoquin**

- M.S. Robert Galvin –William & Mary, entered 2017–2020, *A comparison of shorebird habitat use between living shorelines and natural fringing marshes*
- Ph.D. David Perkey– VIMS, entered 2016
- Ph.D. Pamela Braff – VIMS, entered 2015–2019, *Evaluating the impacts of land use and climate change on the hydrology of headwater wetlands in the coastal plain of Virginia*
- Ph.D. Karinna Nunez – VIMS, entered 2015–2019, *Cross-scale simulations: an innovative approach to evaluate the impacts of sea-level rise on tidal marsh habitats*
- M.S. Abbey Humphreys – College of William & Mary, 2015–2017, *Predicting the impact of sea level rise on Phragmites and Spartina in tidal freshwater marshes of James City County, VA*
- M.S. Emily Egginton – VIMS, 2012– 2015, *Assessing the impact of climate change on proposed restoration of the Lynnhaven River ecosystem*
- M.S. Robert Isdell – College of William & Mary, 2011–2013, *Anthropogenic modifications of connectivity at the aquatic-terrestrial ecotone in the Chesapeake Bay*
- Ph.D. Cielomar Rodriguez – VIMS, 2010–2014, *Predicting climate change and development impacts on future shoreline ecosystem service capacity*
- Ph.D. Mary Huang – VIMS, 2005–2010, *Spatial and temporal analysis of fecal coliform distribution in Virginia coastal waters.*

Undergraduate Student Mentor or Committee Service

- 2019 Holly Funkhouser, Honor Thesis Committee member, W&M, *Impacts of projected sea level rise on diamondback terrapin nesting habitats in Virginia*
- Summer 2016 Kathrene Lo, NSF REU program (co-mentor with R. Isdell)
- Summer 2014 Matthew Schliep, NSF REU program (co-mentor with M. Mitchell)
- 2013-2014 Matthew Schliep, College of W&M undergraduate
- 2004 Inia Soto – participating in the NSF REU program (co-mentor with Marcia Berman)

High School Student Mentor

- 2012 Tom Moss –Virginia Governor School Student from Norfolk Academy

FELLOWSHIPS AND GRANTS

Total Funding: \$11,862,193 as PI \$1,837,846 as Co-PI \$10,026,347
Funding since 2014: \$6,537,735 as PI \$1,074,388 as Co-PI \$5,463,347

- 2021-2023 National Oceanic and Atmospheric Administration (NOAA) Chesapeake Bay Fisheries Research Program. Valuation of ecological and social benefits provided by natural and restored nearshore habitat for communities and fisheries. **PIs: Bilkovic, Scheld.** \$248,476
- 2021-2024 National Fish & Wildlife Foundation (NFWF). Accelerating Water Quality Improvements in the James River through the Living Shoreline Collaborative. Subaward to James River Association, pending final award at VIMS. **PIs: K. Duhring, D. Bilkovic, M. Mitchell. \$1M; ~\$150,000 direct funds to VIMS.**
- 2021-2023 NOAA-NERRs. State of the York: A holistic synthesis of place-based data for informed decision-making and outreach. **PIs: C. Nunez, D. Bilkovic, K. Nunez. ~\$100,000**

- 2021-2023 Honda Foundation. A Decision-Support Model for Computing Sediment and Nutrient Removals from Living Shoreline Restoration in the lower Chesapeake Bay. PIs: M. Brush, **D. Bilkovic**, M. Mitchell. **\$99,206**.
- 2021–2022 National Fish & Wildlife Foundation (NFWF). Dungeness Crab Biohinge: Phase II. **PIs: Havens, Bilkovic. \$130,579**.
- 2020–2021 Environmental Protection Agency (EPA). Strategy development to enhance the conservation and adaptation of Virginia coastal wetlands under climate change. **PIs: M. Mitchell, D. Bilkovic. \$135,719**.
- 2020–2021 Ecological Effects of Sea Level Rise (EESLR) Event Response Program. Evaluation of wave attenuation, shoreline stabilization and oyster resilience at US Atlantic and Gulf coast oyster reef living shorelines VIMS subaward **PI: Bilkovic. \$2,000**.
- 2019–2021 National Oceanic and Atmospheric Administration (NOAA) Marine Debris Program. Accelerating removal of derelict crab traps plaguing coastal Louisiana, and collecting data to assess their economic impact, subcontract with Lake Pontchartrain Foundation. **PI: Bilkovic**, Co-PIs: K. Havens, A. Scheld. **\$74,959**.
- 2019–2024 Virginia Department of Transportation (VDOT)/Office of the Secretary of Natural Resources. Memorandum of Understanding. Developing a proactive strategy for understanding and addressing sea level rise, land subsidence and recurrent flooding impacts on road infrastructure and potential road impacts on natural systems as the climate changes. **PIs: K. Havens, C. Hershner, D. Bilkovic. \$1,500,000**.
- 2019–2020 National Fish & Wildlife Foundation (NFWF). Engaging students and citizens in the removal of derelict blue crab traps. **PIs: Havens, Bilkovic, Scheld. \$60,000**
- 2019–2020 National Fish & Wildlife Foundation (NFWF). Targeting hotspot removal of derelict blue crab traps (VA/MD). **PIs: Havens, Bilkovic, Scheld. \$115,687**.
- 2019–2020 National Fish & Wildlife Foundation (NFWF). Sustaining agriculture in Chesapeake Bay at-risk coastal and riparian landscapes **PIs: Havens, Hershner, Bilkovic. \$49,994**
- 2018–2020 Environmental Protection Agency (EPA)/ Virginia Department of Environmental Quality (VADEQ). Refining program capacity to enhance and protect wetland resources in Virginia. **PIs: Havens, M. Mitchell, Bilkovic. \$313,848**
- 2018–2021 Environmental Protection Agency (EPA)/Maryland Department of Environment (MDE). Improved siting of living shorelines and restoration guidance for stream/wetland complexes in support of Maryland’s Wetland Program Plan Development. **PIs: Berman, Bilkovic. \$199,999**
- 2018–2019 Virginia Sea Grant/NOAA. Determining effective derelict gear mitigation strategies by evaluating fisher preferences and behavioral response. **PIs: J. DelBene*, Bilkovic, Scheld, *Graduate Student James Delbene is lead PI. \$20,000**

- 2018–2019 Chesapeake Bay Trust. Quantifying the relative effects of shorescape development on forage fish production in Chesapeake Bay **PIs:** T. Tuckey, M. Fabrizio, **Bilkovic**, J. Herman. **\$40,000**
- 2017–2019 Commonwealth of Virginia, Center for Innovative Technology (CIT). An Innovative Mechanism for Reducing Nitrogen and Phosphorus Inputs to Virginia Waters **PIs:** Havens, R. Chambers, Hershner, **Bilkovic**. **\$99,450**
- 2017–2018 National Fish & Wildlife Foundation (NFWF) and ABT Associates. Evaluation of Hurricane Sandy coastal resiliency program. **PIs:** P. Mason, Mitchell, **Bilkovic**. **\$126,478**
- 2017–2018 Environmental Protection Agency. Building capacity for wetland program protection of wetland resources in Virginia. **PIs:** Havens, **Bilkovic**, M. Berman. **\$646,207**
- 2017–2018 National Oceanic and Atmospheric Administration (NOAA). Impacts of derelict crab pots **PIs:** Scheld, **Bilkovic**. **\$5000**
- 2016–2020 National Science Foundation (NSF). Coastal SEES Collaborative Research: Sustainability in Chesapeake Bay shorescapes: climate change, management decisions, and ecological functions. The project examines the interactions of human and natural shoreline systems and **Bilkovic is Lead PI of the Natural Systems Section**. **PIs:** Hershner, **Bilkovic**, J. Shen, J. Zhang, R. Chambers, M. Leu, S. Stafford, M. Covi, S. Jones. **\$941,950**
- 2016–2019 Environmental Protection Agency. Enhancing the adaptive capacity of Virginia coastal wetlands to lessen vulnerability to climate change. **PI:** **Bilkovic**, Co-PIs: Mitchell, Havens. **\$356,180**
- 2016 US Army Corps of Engineers and ABT Associates. SAGE: Site-specific metrics to assess the performance of green and hybrid infrastructure on biogeochemical and human use parameters. **PI:** **Bilkovic**, Co-PI: Mitchell. **\$26,653**
- 2015–2016 Commonwealth of Virginia, Center for Innovative Technology (CIT). Eliminating plastic shotgun wads as a source of harmful aquatic debris. **PIs:** Havens, **Bilkovic**. **\$83,971**
- 2015–2018 College of William & Mary (CCEE). Plastics in the Environment: Problems, Opportunities and Solutions. **PIs:** R. Hale, D. Lluellen, BK Song, **Bilkovic**, Havens. **\$10,000**
- 2014–2017 Environmental Protection Agency. Development of strategies to improve conservation of Virginia headwater wetland ecosystems in the face of climate change **PI:** **Bilkovic**, Co-PIs: Havens, Hershner. **\$392,773**
- 2014–2016 National Oceanic and Atmospheric Administration - Global Science & Technology, Inc. Regional Impact Assessment of Derelict Fishing Gear in the Chesapeake Bay. **PIs:** Havens, **Bilkovic**. **\$486,438**
- 2014–2015 National Fish & Wildlife Foundation. Reducing Bycatch Mortality in Crab Pots. **PIs:** Havens, **Bilkovic**, Chambers. **\$87,168**

- 2014–2015 US Department of Commerce Economic Development Administration, Virginia Innovation Partnership (VIP). Market Advantage of Ocean Safe Biodegradable Microbead Sequestration in Marine Sediments. **PIs:** Havens, **Bilkovic. \$35,000**
- 2013–2015 National Science Foundation, Coastal SEES Program. Chesapeake Bay sustainability: Implications of changing climate and shifting management objectives. **PIs:** Hershner, **Bilkovic**, J. Zhang, T. Hartley. **\$582,532**
- 2013–2014 Commonwealth of Virginia, Secretary of Natural Resources. Using created marshes to reduce watershed NPS pollution **PI: Bilkovic**, Co-PI: Havens, R. Chambers. **\$144,147**
- 2013–2014 National Fish and Wildlife Foundation. Johns Point living shoreline **PI: Bilkovic. \$19,375**
- 2013–2014 North Carolina University. Lost and abandoned blue crab pot removal in North Carolina **PIs:** Havens, **Bilkovic. \$6,575**
- 2013–2014 National Science Foundation, Women in Science and Engineering (WISE), W&M. Travel Grant Recipient. 106th Annual Meeting of National Shellfisheries. **PI: Bilkovic. \$1000**
- 2013–2014 National Science Foundation, Women in Science and Engineering (WISE), W&M. Seed Research grant. Biofiltration capacity of ribbed mussel populations. **PI: Bilkovic. \$2935**
- 2013–2014 National Science Foundation, Women in Science and Engineering (WISE), W&M. Seed Research grant. Composition, distribution, and dynamics of intertidal epibiota on coastal defense structures. **PI: Bilkovic. \$3406**
- 2013–2014 Virginia Secretary of Natural Resources. Removal of lost and abandoned blue crab pots from Virginia Chesapeake Bay hotspots – 2013. **PIs:** Havens, **Bilkovic. \$99,549**
- 2013–2014 National Fish and Wildlife Foundation. Testing biodegradable panels and ferrous metal “O” rings for lobster pots in Maine & Massachusetts. **PIs:** Havens, **Bilkovic. \$78,872**
- 2013–2014 Virginia Innovation Partnership (VIP). Ocean-safe Biodegradable Microspheres for the Cosmetic and Toiletries Industry. **PIs:** Havens, **Bilkovic. \$60,000**
- 2012–2013 National Oceanic and Atmospheric Administration. Removal of lost and abandoned blue crab pots from Virginia Chesapeake Bay hotspots. **PIs:** Havens, **Bilkovic. \$50,000**
- 2012–2013 Commonwealth Research Commercialization Fund (CRCF). Biodegradable Panels for Crab and Lobster Pots. **PI: Bilkovic**, Co-PI: Havens. **\$12,000**
- 2012–2013 National Science Foundation, Women in Science and Engineering (WISE), W&M. Seed Research grant. Ecological trade-offs of living shoreline erosion control approaches. **PI: Bilkovic. \$2909**

- 2012–2015 Environmental Protection Agency (EPA). Development of strategies to improve protection of wetlands and headwater resources in Virginia. **PIs:** Hershner, Havens, Berman, **Bilkovic**. **\$1,014,640**
- 2011–2012 Chesapeake Bay Trust. Comprehensive monitoring of ecological & erosion protection functions of Chesapeake Bay living shorelines, Phase 2. **PI: Bilkovic**, co-PI: Mitchell. **\$53,394**
- 2011–2012 National Oceanic and Atmospheric Administration, Virginia Sea Grant. Foundation for future development of by-catch reduction strategies for commercial and recreational blue crab fisheries: diamondback terrapin habitat mapping. **PI: Bilkovic**, Co-PI: Havens, R. Chambers (W&M) and M. Leu (W&M). **\$38,907**
- 2011 Shirley Plantation. Marine Science Studies in the James River, Virginia in the Vicinity of Shirley Plantation. **PIs:** S. Kuehl, **Bilkovic**, C. Hobbs. **\$9,980**
- 2010–2011 Chesapeake Bay Trust. Comprehensive monitoring of ecological & erosion protection functions of Chesapeake Bay living shorelines, Phase 1. **PI: Bilkovic**, co-PI: Mitchell. **\$50,000**
- 2009–2011 National Oceanic and Atmospheric Administration. Shallow water derelict blue crab trap removal (supplement to the Watermen’s program). **PIs:** Havens, **Bilkovic**. **\$304,630**
- 2008–2011 National Oceanic and Atmospheric Administration. Derelict blue crab trap removal – Virginia (Watermen’s marine debris removal program). **PIs:** Havens, **Bilkovic**. **\$1,192,609**
- 2008–2010 Environmental Protection Agency. On-going development of nontidal wetland inventory and monitoring strategy for Virginia. **PIs:** Havens, **Bilkovic**, Hershner. **\$385,699**
- 2008–2009 National Oceanic and Atmospheric Administration (Versar Inc). Abandoned and derelict blue crab traps in Virginia. **PIs:** Havens, **Bilkovic**. **\$65,000**
- 2007–2009 NOAA Chesapeake Bay Program. Assessing the potential for changes in Virginia’s shallow tidal water habitats. **PIs:** Hershner, **Bilkovic**, Berman, Havens. **\$120,000**
- 2007–2009 NOAA Chesapeake Bay Program. Atlantic sturgeon Spawning Habitat on the James River **PI: Bilkovic**. **\$20,000**
- 2007–2008 NOAA Chesapeake Bay Program. The influence of spatial arrangement of habitats on tidal marsh fish communities within Mobjack Bay, Virginia. **PI: Bilkovic**, Co-PIs: Havens, Hershner. **\$167,745**
- 2007–2008 National Fish and Wildlife Foundation. Development and testing of gear modification for blue crab pots to reduce crab and by-catch mortality by derelict crab pots. **PIs:** Havens, **Bilkovic**, R. Fisher. **\$28,642**

- 2006–2007 National Fish and Wildlife Foundation. Affects of ghost crab pots in the Chesapeake (VA) **PIs: Havens, Bilkovic. \$35,022**
- 2006–2007 U.S. Army Corps of Engineers. Lynnhaven River Shallow Water Fish Survey and Shoreline Inventory. **PI: Bilkovic, Co-PIs: D. O'Brien, Hershner. \$134,695**
- 2006–2007 US Fish and Wildlife Service (USFWS). Atlantic Sturgeon Habitat Assessment Project. **PI: Bilkovic. \$3,000**
- 2006 Dominion Resources/CH2MHILL. 316(b) Phase II restoration option scaling for Dominion Resources Virginia Generating Stations. **PIs: Hershner, Bilkovic, M. Roggero. \$80,000**
- 2005–2006 US Fish and Wildlife Service (USFWS). Atlantic Sturgeon Habitat Assessment Project. **PI: Bilkovic. \$9,945**
- 2005–2006 NOAA Chesapeake Bay Program. Inventory of Derelict (ghost) Crab Pots in the Lower York River. **PIs: Havens, Bilkovic. \$65,000.**
- 2005–2006 NOAA Chesapeake Bay Program. Ecosystem approaches to aquatic health assessment: linking subtidal habitat quality, shoreline condition and estuarine fish communities. **PI: Bilkovic. \$100,000**
- 2005–2006 CH2MHILL. 316(b) Phase II Preliminary Restoration Support Activities for Dominion Virginia Generating Stations. **PIs: Hershner, Bilkovic. \$68,000**
- 2001–2006 EPA-STAR. Development, testing, and application of ecological and socioeconomic indicators for integrated assessment of aquatic ecosystems of the Atlantic Slope in the Mid-Atlantic States. Cooperative project with Penn State, Smithsonian, and East Carolina University (\$6.0 million (VIMS portion \$1,183,435, **PIs: Hershner, Havens, L. Varnell, Bilkovic (post-doctoral researcher).**
- 2000-2004 Private funds. Monitoring Active Replenishment of Subsiding Habitat (MARSH Project). **PIs: Hershner, Havens, Bilkovic. \$250,000**
- 1999–2000 NOAA/National Marine Fisheries Service (NMFS). Locating upriver spawning reaches of American shad (*Alosa sapidissima*) on the Mattaponi and Pamunkey Rivers via ichthyoplankton surveys and the examination of relative juvenile abundance and distribution in relation to river discharge. Grant No. NA76FA0361. **PIs: Hershner Bilkovic, J. Olney. \$38,000**
- 1997–1998 NOAA/NMFS. Identification of Potential American Shad (*Alosa sapidissima*) Spawning and Nursery Habitats in the Mattaponi and Pamunkey Rivers Based on Physical Habitat and Landscape Variables. Grant No. NA96FA0192. **PIs: Hershner Bilkovic, J. Olney. \$26,250**

Books

D.M. Bilkovic (Lead editor), M. Mitchell, M. LaPeyre, and J. Toft (eds). 2017. *Living Shorelines: The Science and Management of Nature-based Coastal Protection*. CRC Marine Science Series, CRC Press/Taylor & Francis Group.

This book is the first synthesis of the science of Living Shorelines – shoreline protection approaches that are intended to restore natural shoreline functions in estuarine, marine, and aquatic systems. This work is international in scope and consists of contributed peer-reviewed chapters from managers, scientists, policy-makers, and practitioners in order to be a valuable reference text for a broad audience and encourage interdisciplinary thinking.

Patents from Research

Biodegradable plastic netting. U.S. Provisional Patent Application No. 62/561,364 filed with College of William and Mary Technology Transfer Office Sept 21, 2018. Inventors: Kirk Havens, **Donna Marie Bilkovic**, David Stanhope, Kory Angstadt, and Randolph Chambers.

Degradable shotgun wad. US Patent Application Number 14/303496 filed with College of William and Mary Technology Transfer Office on June 2014. Inventors: Kirk Havens, **Donna Marie Bilkovic**, David Stanhope, Kory Angstadt, and Wade Blackwood. **Patent No. 9,528,800 B2 Issued on Dec 27, 2016.**

Degradable Identification Component. US Provisional Patent Application Number 61/766,860 filed with College of William and Mary Technology Transfer Office on Feb 2013. Inventors: Kirk Havens, **Donna Marie Bilkovic**, David Stanhope, and Kory Angstadt. **Patent No. 9,520,074 B2 Issued on Dec 13, 2016.**

Fishing Gear with Degradable Component. Inventors: Kirk Havens, **Donna Marie Bilkovic**, David Stanhope, and Kory Angstadt. **Patent No. 8,938,908 B2 Issued on Jan 27, 2015.**

Crustacean Trap with Degradable Cull Ring Panel. US Patent Application No. 13/403,083 filed with College of William and Mary Technology Transfer Office on February 2012. Patent issued on 19 Feb 2013. Inventors: Kirk Havens, **Donna Marie Bilkovic**, David Stanhope, and Kory Angstadt.

Work in progress or submitted

Pending Proposals

Strengthening Coasts and People (SCOPE): Multi-dimensional exploration of the capacity for resilience in coastal communities. (submitted to NSF CoPe Aug 2020, Lead PI **Bilkovic**, \$4.83M, 5 yrs)

Manuscripts

Other Scholarly Activity

Professional Development: Workshop and Course Participant

NSF Coasts and People (COPE) scoping workshop. Selected participant to a planning workshop to identify the research needs and the optimal structure for research initiatives on Coastlines and People. 26-28 September 2018.

Oyster Ecosystem Services Expert Panel. Invited to participate on an expert panel to inform research (leads: J. Cebrian, B. Walton, A. Harri, and D. Petrolia, U of South Alabama, Auburn University, Mississippi State University) that seeks to compare the ecosystem services provided by different oyster resource uses (i.e. traditional-planting harvested reefs; off-bottom aquaculture cages; and restored, non-harvested reefs) by applying modern portfolio theory to the management of multiple oyster resource uses for multiple ecosystem services. Dauphin Island Sea Lab, Dauphin Island, Alabama. August 30 – September 1 2018.

Panelist for a Grant Writing Workshop for graduate students, VIMS. Oct 2018

Chesapeake Bay STAC workshop steering committee. *Factors Influencing Fish Habitat Function in the Chesapeake Bay Watershed: Application to Restoration and Management Decisions*. Richmond, VA, 25-26 April 2018.

Permanova+ Multivariate Analysis in Ecology Workshop, Williamsburg, VA. March 6-10, 2017.

Session organizer and Chair. Session: *The Missing Link: Connecting Water Quality and Living Resources Models to Support Ecosystem-Based Decisions*. Chesapeake Modeling Symposium (CheMS16), Williamsburg, VA, 1-2 June 2016.

National Science Foundation Coastal SEES all-PI Meeting, Arlington, VA. Jan 29-30, 2015.

Participant in the Virginia Coastal Partners Workshop: Assessing Past Progress, Planning the Future. Virginia Department of Environmental Quality, Richmond, VA. Dec 2014

Session Chair, *Monitoring and Assessment of Living Shorelines: Key components in informing design and evaluating restoration success towards adaptive management*. Restore America's Estuaries 7th National Summit on Coastal and Estuarine Restoration and 24th Biennial Meeting of the Coastal Society, National Harbor, MD, Nov 2014.

Geostatistics. Course taught by Dr. Patrick Sullivan, Cornell University, VIMS Jan 8–10, 2014.

Session chair, *Living Shorelines*. 41st annual Benthic Ecology Meeting. Norfolk, Virginia, Mar 2012

Multivariate Statistics in R (MS698). Course taught by John Hoenig, VIMS. Jan–Feb 2012.

Model Selection and Multimodel Inference. Three-day workshop taught by David Anderson at the College of William & Mary, Williamsburg, VA. January 12–14, 2011.

Structural Equations Modeling. Two-day workshop taught by Jim Grace, USGS at the College of William & Mary, Williamsburg, VA. December 8–9, 2010.

Statistical and Graphical Analysis in R (MS698). Course taught by John Hoenig, VIMS. Sept–Oct 2010.

Environmental Statistics. Online course taught by Bryan Manly. Oct–Nov 2010.

EPA Coastal Wetlands Initiative - York, Pamunkey and Mattaponi Watersheds. Gloucester Point, VA. September 29, 2009

Invited participant in a workshop to modify habitat suitability models for American shad funded by NOAA/NMFS and hosted by North Carolina State University (Dr. Joe Hightower). January 2009. Workshop results published in 2012. Hightower et al. A Bayesian Spawning Habitat Suitability Model for American Shad in Southeastern United States Rivers. *Journal of Fish and Wildlife Management* 3:184-198.

Scientific and Technical Advisory Committee Review of the CBP Monitoring Programs, Workshop 3, December 8, 2008.

Facilitated and co-hosted with NOAA-CBO the second annual 'Benthic Mapping and Characterization Workshop' held in February 2007 in Edgewater, Maryland with participants from various groups throughout the U.S., Canada and Taiwan. The objective was to continue to link efforts to establish a more comprehensive approach to describing benthic habitat Bay-wide, and to update training on new technologies offered by Questar Tangent Corp.

Course participant in *Analysis of Multivariate Data from Ecology and Environmental Science, Using Primer v6*, lecturer: Bob Clarke, St. Petersburg, FL October 16–21, 2006

Scientific and Technical Advisory Committee-Spatial Analyses workshop. CBP. Annapolis, MD, March 21–22, 2006.

Facilitated a 'Benthic Mapping and Characterization Workshop' for 4 days in February 2006 with participants from various groups throughout the U.S. and Canada, including NOAA-CBO. The objective was to link efforts to establish a more comprehensive approach to describing benthic habitat Bay-wide.

Estuarine Indicator Workshop. October 29–31, 2003. Sanibel Island, Florida.

Croatia-USA Workshop. Biocomplexity and Sustainable Ecosystem Management: Integrating natural, social and economic sciences in Dubrovnik, Croatia. NSF, October 2002.

EPA-STAR Estuarine and Great Lakes (EaGLE) Program, Atlantic Slope Consortium—Ecological Scaling Workshop, 12–13 December 2001, Cacapon, WV.

Chesapeake Bay EcoPath with Ecosim, NOAA Chesapeake Bay Office, 22–24 Oct 2001, Laurel, MD

Chesapeake Bay Program Joint Meeting: Tidal Habitat Workgroup, Non-Tidal Habitat Workgroup, & Fisheries Management Planning and Coordination August 9, 2001, United States Fish and Wildlife Service, Annapolis, MD.

Editorial Board Services, review panels, program reviews, national or international research programs

Editorial Board Services:

Guest editor with R. Morris (U. Melbourne), E. Strain(U. Tasmania), B. Walles (Wageningen University and Research, the Netherlands) for special issue of Ecological Engineering: Nature-based coastal defence: developing the knowledge needed for wider implementation. 2020 - 2021

Review Editor on the Editorial Board of Marine Conservation and Sustainability, a specialty section of *Frontiers in Marine Science* (2020–)

Associate Editor: Tropical Ecology (2011–2016), the journal of the International Society of Tropical Ecology which serves as an outlet for scientists from developing nations to publish peer-reviewed research

Review Panel:

Led a STAC review panel and lead author on final report (2016, published May 2017)

“Review of boat wake wave impacts on shoreline erosion and potential solutions for the Chesapeake Bay”. As requested by the Chesapeake Bay Commission (CBC), this report reviews the relevant information on the potential impacts of boat generated waves on shoreline stability and attendant ecosystem properties, and provide advice on available policy actions to minimize any adverse effects.

Led a STAC review panel and lead author on final report (published 2014)

“Review of the Final Report of the Sustainable Fisheries Goal Implementation Team Invasive Catfish Task Force.” As requested by the CBP Sustainable Fisheries Goal Implementation Team, this report reviews the the technical feasibility, reasonableness, likelihood of success, and potential unintended effects that may result for recommendations from the Invasive Catfish Task Force for the management of invasive catfish in Chesapeake Bay.

Served on Review Panel for the North Atlantic Landscape Conservation Cooperative (NALCC) and was charged with reviewing one of three habitat vulnerability assessments commissioned by the Northeast Association of Fish and Wildlife Agencies (NEAFWA) and the NALCC – “The Vulnerabilities of Northeastern Fish and Wildlife Habitats to Sea Level Rise” by Manomet Center for Conservation Sciences; the National Wildlife Federation. September 2013.

STAC review panel member and co-author on final STAC report (published August 2013)

“Evaluation of the use of shellfish as a method of nutrient reduction in Chesapeake Bay”. As requested by the CBP Management Board, this report reviews the potential for oysters to remove nutrients and identifies guiding principles for potential incorporation into the Bay TMDL.

Proposal Reviews:

Garden Club of America Coastal Wetland Studies scholarship (10 proposals) – 2021

Bain Graduate Fellowship – 2020

NOAA Davidson Fellowship (2 proposals) – 2020

Gulf of Mexico University Research Collaborative, RESTORE Council – 2019
Maine Sea Grant – 2019
Research Council of Norway – 2018, 2019
National Estuarine Research Reserve System (NERRS) Science Collaborative Funding Opportunity – 2016, 2018
Hudson River Foundation – 2016, 2019
Sultan Qaboos University, Oman – 2018
North Carolina Seagrant – 2017
Connecticut Seagrant – 2017
Chesapeake Bay Program Climate Resiliency (4 proposals) – 2016
Gulf Restoration Program - Exploratory Grants (5 proposals) – 2015
National Estuarine Research Reserve System (NERRS) Science Collaborative Funding Opportunity (2 proposals) – 2015
Hudson River Foundation – 2015
North Carolina Sea Grant – 2014
NSF – 2013
New Jersey Sea Grant – 2011
NOAA/NMFS – 2008

Program reviews:

Served as an External Peer Reviewer for EPA's Global Change Research Program (GCRP) – reviewed EPA's Draft Climate Change Vulnerability Assessment for the Massachusetts Bays National Estuaries Program in the Climate Ready Estuaries Program. Sept 2011.

Document Reviews:

Merit Review of the Phase II ecological risk assessment conceptual model from the Plastic Pollution Action Team (PPAT) for Chesapeake Bay Program STAC. Nov 2020.

Scientific review of the UN World Ocean Assessment - *Salt Marshes* (Ch. 50). Feb 2015

Review of the Chesapeake Bay Program Draft Bay Agreement, VIMS. August 2013.

Scientific review of the Chesapeake Bay Program's *Chesapeake Bay 2008 Health and Restoration Assessment*, February 2009

Scientific review of *A Framework for Assessing the Nation's Fish Habitat* a document developed by the National Fish Habitat Science and Data Committee to provide a framework plan for assessing current habitat conditions, prioritizing waters, and evaluating the success of National Fish Habitat Action Plan projects. January 2007.

Scientific review of the American Shad Section of the Diadromous Fish Species Habitat Source Document for ASMFC, 2003–2005

ADVISORY SERVICE ACTIVITY

Advisory service relative to VIMS state mandates, regional & international advice

Service to federal and state agencies

Involved in numerous ongoing internally funded activities at Center for Coastal Resources

Management, including the development of science-based integrated management guidance and decision-support tools for coastal communities (e.g., Comprehensive Coastal Resources Management Portals (CCRMP) for localities), translation of science to guidance for multiple end users (federal, state, localities, general public), the integration and application of CCRM monitoring survey databases for applied research (e.g., tidal marshes and shoreline condition inventories), and the assessment of coastal habitat vulnerability to climate change. 2005–present

Member of the Virginia Marine Debris Reduction Plan (VMDRP) Leadership Team. The Leadership Team was directed by Virginia Coastal Zone Management Program to create a VMDRP, as required under VCZMP's Section 309 Ocean Resources Management Strategy, with an analysis of key marine debris issues, prioritization of these issues, and development of a plan to address the high priority issues. The first of its kind, this Plan (published October 2014) was expected to provide a model for the U.S. Atlantic coast. The Team planned and hosted the 2nd Virginia Marine Debris Summit, held March 7-9, 2016 at Virginia Institute of Marine Science. The Summit provided updates on current marine debris science and trends and explored techniques and tools effective in enhancing knowledge, changing behavior and influencing policies that reduce marine debris. The intent was to increase the capacity to help accomplish the goals of the Virginia Marine Debris Reduction Plan as well as explore regional efforts to reduce the sources and impacts of marine debris.

Serve on the Marine Debris workgroup to the Coastal Zone Management program. 2020–present

Serve on the Habitat sub-committee for the Elizabeth River Watershed Action Team. 2021–present

Serve on the science advisory steering committee for the York River and Small Coastal Basin Roundtable. June 2019–present

Invited participant to the EPA Region 3 Regional Monitoring Network (RMN) Workshop - Indicators of Long-Term Wetland Change, Cacapon State Park, WV, April 26-27, 2017. Organized and hosted by EPA's Office of Research and Development and EPA Region 3. The goal of the workshop was to develop a proposed framework to establish a Regional Monitoring Network (RMN) to detect changing baselines in non-tidal and tidal wetlands in the mid-Atlantic region.

Invited participant to a NOAA Marine Debris Program planning workshop to develop the first Virginia Marine Debris Emergency Response Guide. The workshop goal was to strengthen coordination between federal, state, and local stakeholders to improve preparedness for an incident that generates marine debris in coastal waters. The Mariner's Museum and Park, Newport News, VA. Aug 2-3, 2017.

Facilitated technical workshop entitled *Habitat Restoration Scaling* on the use of habitat restoration under 316b regulations for state agencies, including VMRC, VGIF, and DEQ. Richmond, VA. Sep 27, 2006.

Requested advisory reviews for federal and state agencies

Regularly provide expert advice on the potential ecological impacts of a myriad of proposed activities including dredging, shoreline alteration, and water withdrawal to requesting agencies (e.g., Virginia Marine Resources Commission (VMRC), US Army Corps of Engineers (USACE)) – *select examples listed below.*

Advisory review of a proposal to construct a tidal freshwater wetland within the Dyke Marsh Wildlife Preserve. Nov-Dev 2017.

Advisory review and data summary for New Kent County's proposed surface water withdrawal project. Pre-proposal stage, Dec 2014-Jan 2015, proposal stage June 2016, Feb 2017.

Advisory review of a water intake proposal for an estuarine surface water intake and desalination brine discharge by the James City Service Authority (Joint Permit Application #16-1533). Dec 2016.

Advisory review of pre-application information regarding the proposal for an intake and outfall to support a natural gas-fired electric generating facility in Charles City County. Aug-Sep 2016.

Advisory review of James River Dominion power crossing line (Surry – Skiffes Creek – Whealton 500kV/230kV Line (VMRC #13-0408)) for time of year restrictions for anadromous fish. Dec 2014-Jan 2015.

Advisory review of VDOT's bridge project over Sandy Creek, Mattaponi River in King William County for time of year restrictions for anadromous fish. Jan 2014.

Advisory review of the USACE's Lynnhaven Basin Ecosystem Restoration Plan. May 2013.

Advisory review of a multi-jurisdictional tunnel project involving the Midtown Tunnel, Downtown Tunnel and Martin Luther King extension and crossing the Elizabeth River. Joint Permit Application 11-1116. Feb-Mar 2012.

Advisory review of Loudoun water withdrawal proposal. Joint Permit Application for the Potomac Water Supply Program. January 2011.

Advisory review on 'Weir effects on fish spawning in Lake Tecumseh, Virginia Beach'. May 2010.

Advisory review of time of year restrictions variance request by USACE for dredging activities on College Creek, James River. Provided to NOAA & VMRC. January 2010.

Advisory review of time of year restrictions variance request by Norfolk District Corps of Engineers for dredging activities at Tribell Shoal Channel, James River. January 2010.

Advisory review of environmental assessment for the Lesner Bridge replacement effects on anadromous fish within the Lynnhaven River. October 2009.

Advisory review of time of year restrictions variance request by Norfolk District Corps of Engineers for dredging activities on the James River. January 2009.

Advisory review of time of year restrictions variance request by VDOT for activities in the Potomac River. January 2009.

Advisory review of potential fish impacts from a dredging permit application in the James River near Hopewell for VMRC. July 2008.

Serving on an advisory committee at VIMS, which produced comments at the request of the Virginia Marine Resources Commission (VMRC) on the potential environmental impact from the proposed King William Reservoir. Contributed extensive data, analyses, written summaries, and participated in meetings with the applicant and VMRC from Nov 2002-2004. Products of these activities include two reports (dated March 12, 2003 and June 25, 2004) and two manuscripts (both published in 2008).

Advisory review of products from the Caroline County, Virginia water supply intake proposed fish monitoring survey. January 2007.

Advisory review of proposed water supply intake project on Powell's Creek off of the Potomac River in Prince William County for impacts to ichthyoplankton. January-February 2007.

Advisory review of potential impacts of temperature increases on striped bass in Lake Anna and the Pamunkey River with representatives from Dominion Power. July 2005.

Regional, national or international management commissions or programs

Serve on the Executive Board for the Chesapeake Bay Program's Scientific and Technical Advisory Committee (STAC), Dec 2015–Dec 2017

Serve on Chesapeake Bay Program's Scientific and Technical Advisory Committee (STAC), 2010–2018

Serve on Chesapeake Bay Program Climate Resiliency Workgroup (2014–present)

Serve on Chesapeake Bay Program Fish Habitat Workgroup (2015–present)

Serve on Chesapeake Bay Program Living shoreline outreach (phase 3) steering committee (2021–present)

Serve on Chesapeake Bay Program's Habitat Goal Implementation Team (2010–2014)

Serve on the *Natural and Green Infrastructure Metrics Workgroup* (2015-2016). An interagency (including federal and state agencies, conservation organizations, engineering firms, and academic institutions) workgroup charged with facilitating the role natural and nature based features have in

safeguarding people and wildlife. An initial focal area was the development of science-based metrics to evaluate the success of natural and nature-based infrastructure shoreline projects.

Invited participant in the Living Shoreline Restoration Workshop held by FWS, Northeast Region, Refuge Division. The workshop intent was to gather experts to provide technical guidance on living shoreline design, implementation, and monitoring for USFWS National Wildlife Refuges (New England to Virginia). Dover, DE. Feb 25–26, 2014.

Serve on subcommittee of Chesapeake Bay Program's STAC to produce a document detailing *STAC Recommendations for Chesapeake Bay agreement goal and outcome statements*. The intent of the document is to guide drafting efforts toward a formulation of intentions that will support both the need for program accountability and effective adaptive management of program actions. 2013–2014

Served on subcommittee of Chesapeake Bay Program's STAC to develop a document "Criteria for Science-Based Restoration and Management" which offers criteria as practical elements to guide and, in some cases evaluate, prospective agreements among the Bay Program Partners. Dec 2013–Jan 2014

NOAA Living Shorelines Technical Advisory Workgroup – participate as a member of the technical advisory committee to inform living shoreline project prioritization. 2013 –2015

Contributed to the development of an essential fish habitat reference document by NOAA Fisheries for use by professionals engaged in marine habitat assessment, permitting agencies, and state and federal marine resource managers in the Atlantic Coast. Technical Workshop on Impacts to Coastal Fishery Habitat from Non-Fishing Activities. Jan 10–12, 2005, Mystic, CT.

Public outreach

Invited speaker on living shorelines to the Poquoson Kiwanis Club, 9 Feb 2021

Staffed Educational booth for the *VIMS Fall Seafood Fest* on marine debris solutions, 30 Sept 2018

Invited speaker for Earth Day at St. Margaret's School, Tappahannock, Virginia (a boarding school for girls in 8-12 grades). April 19, 2018

Staffed Educational booth for Marine Science Day, VIMS, May 2004, 2005, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018. Riverfest, representing VIMS, June 2, 2001

Poster presentation on Marine Debris (Havens (*presenting*), Bilkovic, Angstadt, Stanhope) – Malama' Honua Summit, Honolulu, Hawaii. June 19-23, 2017.

Presentation to the VIMS Industry Partnership on biopolymer innovation. December 8, 2017. (K. Havens presenting, co-author).

Invited to host an educational booth for the Rosewell Foundation's Annual BBQ and Wine Tasting fund raiser on ghost crab pots and the history of crabbing in Chesapeake Bay. Gloucester, Virginia. Oct 18, 2015 and Oct 16, 2016.

Presentation to the journalists and staff with the U.S. State Department's Foreign Press Center on marine debris, VIMS. July 7, 2016.

Living shoreline presentation and field tour for the *Alliance For The Bay* Board. April 29, 2016.

Advised a First Lego League Team participating in the Trash Trek Challenge (their project considered ways to reduce the impacts of lost fishing gear) which took first place for their Division 2 (ages 12 - 15 years old), at the First Lego League Tournament held at Deep Run High School in Glen Allen, Virginia. Oct 2015.

Guest Blogger on NOAA's Marine Debris Blog, 'Thousands of Chesapeake Bay Blue Crabs lost each year in derelict pots', May 14, 2014, <https://marinedebrisblog.wordpress.com/tag/chesapeake-bay/>

Volunteer for the Blue Crab Bowl – Virginia's regional competition of the National Ocean Sciences Bowl. March 3, 2012. Old Dominion University. Norfolk, Virginia

Presentation to the Potomac River Fisheries Commission on Derelict Crab Pots and the marine debris removal program, July 2009

Conversation with the Conservation Corp, 2008

Teaching Marsh Tour for "Tag a Marine Scientist for a Day" auction winners, September 2008

Reviewed Scientific Papers for Virginia Junior Academy of Science competition, 2007

Invited Speaker at local King and Queen County Women's Club meeting on American shad life history and restoration. *The Trials and Tribulations of a Shad on the Run*. King and Queen, Virginia, Feb 2005

Contributed to a public service video produced by the Friends of the Rappahannock on the importance of forested riparian buffers to fish communities, Spring 2003

Staffed Educational display booth for VIMS Tidal Wetlands Seminar, 2001, 2003, 2004

Governance

VIMS Dean & Director Search Committee. 2021

Co-Chair of the VIMS Resilience, Conservation and Restoration Strategic Planning Team. 2021

Serve on the VIMS Education Strategic Planning Team. 2021

Appointed Assistant Director to the Center for Coastal Resources Management. 2020 –

Appointed to Institutional Animal Care and Use Committee (IACUC). 2018–

Serve as the VIMS representative on the Environmental Science and Policy Program (ENSP) Executive Board at College of William & Mary. 2016–

Serve on the VIMS Best Student Paper Award Committee. 2018–

Member of the Society for Women in Marine Science (SWMS) Chapter at VIMS. 2017–

Serve on the Women's Network Executive Committee at College of William & Mary/VIMS. 2013–2017

- Co-organized a women's networking lunch, Feb 24, 2016

- On subcommittee, planned and organized the session - How To Get Ahead At Work (Even With No Promotion In Sight): Panel and Discussion, April 22, 2015

- Co-organized the charity event - Wine & Design To Support The Haven, April 14, 2015

- Chaired session for the Women's Network Fall Reception, Sept 23, 2014.

Serve as Officer on the Executive Committee of the Non Tenure Eligible Faculty Association (NTEFA) of the College of William and Mary (VIMS representative). 2013–2017
