- (3) Full registration with no accommodation - \$420 USD

# IGCP Project 725 “Forecasting Coastal Change” Presents The First Annual Meeting in Brazil Second Meeting Announcement

## Registration

Registration options (1) and (2) listed on the first page include: accommodation at the conference hotel, welcome reception, coffee breaks, breakfast each day and most lunches and dinners, transportation to the workshop, and costs associated with the field trips (transportation, entrance fees, most meals).

## Abstracts

Abstracts can be submitted to [jessica\\_pilarczyk@sfu.ca](mailto:jessica_pilarczyk@sfu.ca) by **May 29th**  
Abstracts are limited to one page using Times new Roman 12 pt font single space, including all author details and affiliations  
Please indicate your country of citizenship, whether you are an Early Career Researcher (ECR), and if you seek travel support (see below for instructions).

## Hotel

Hotel SESC Cacupé in Florianopolis is the meeting venue and we have negotiated special lodging pricing for participants. The meeting point for the workshop and fieldtrips will be at this location.  
<https://www.sesc-sc.com.br/hotelsescacupe/>

## Travel Support

Travel support is limited to Early Career Researchers (ECR), Developing Country Researchers (DCR), and female scientists as per funding requirements from IGCP and INQUA.  
Please indicate the level of support you are seeking when submitting an abstract.  
Funding decisions on travel support will be circulated in early August

## Detailed Meeting Schedule

- Oct 21** - Welcome reception and conference dinner at Hotel SESC Cacupé
- Oct 22-23** - Oral and poster presentations, lunch and dinner at Hotel SESC Cacupé
- Oct 24** - Field trip to Tijucas and Pinheira (beach- and foredune-ridge plains archiving Holocene sea-level change, storm impacts, and sediment supply, field lunch (dinner in Pinheira not included)
- Oct 25** - Workshop on “*Headland Sediment Bypassing: Integrating field and observational data and numerical modelling to forecast downdrift beach growth and erosion*” at Universidade Federal de Santa Catarina. Field trip to Central Santa Catarina Island (anthropogenic impacts on coastal systems, beach headland overpassing and bypassing sites, dinner at Lagoa Bokas (lunch at university cafeteria not included)
- Oct 26** - Field trip to Ingleses & Jurere in Northern Santa Catarina Island (coastal evolution linked with headland bypassing). Farewell dinner.
- Oct 27** - Conference breakfast

*\*Breakfast is included each day if staying at the conference hotel. All meals included unless stated above.*
